

NUBRE™

by MCARTHUR MEDICAL

Enteral Feeding Solutions

NUBRE™ is an enteral feeding solution that offers a blend of nutrients tailored to support patients nutritional needs with precision and efficiency

Syringes

- Bold gradient markings on the barrel
- Fully color-coded plunger for added safety in identification
- Seven standard sizes available ranging from 1ml to 60ml
- Orange and Purple syringes available to suit all customers needs
- Amber ENFit® syringes available in Non-Sterile
- Available Sterile or Non-Sterile
- Free of DEHP, BPA, and Latex
- Low Dose Tip (1, 3, 5 ml)
- ENFit® and Enteral tip available

NUBRE™ off-centered (eccentric) design tip delivers lipids first to help maximize nutrition.

Extension sets

- ENFit® ISO 80369-3 compatible connections to enhance patient safety
- Available in both Orange and Purple sets
- Available in Straight or Bifurcated configurations
- Free of DEHP, Latex and BPA
- Low priming volumes
- Sterile

The ENFit® enteral extension set is designed for use with nasogastric, orogastric, or gastric feeding tubes, featuring safety connectors to help prevent misconnections with IV systems. It is indicated for neonatal and pediatric patients to deliver enteral nutrition via nasal or oral gastric access.
